

Social Networking	Specialty die when specifically using network-based apps/technology to solve a problem You may now use Electronics to gather information or investigate a lead.
Cinematic Operating System	As long as a device you are using could believably connect with another (through cables, wireless signal, etc.) you may connect to it and cause it to do anything remotely possible: a boombox could be “hacked” and set to emit a high frequency wail; a TV screen can suddenly become a teleconferencing terminal; a fusebox or electric meter suddenly gives you control over all lights and appliances, etc.
Exotic Certification	Specialty die when attempting to salvage usable parts or items. Additionally, your character may use exotic or restricted equipment without penalties. You character owns or has ready access to one exotic or restricted piece of equipment
