Background			
<p>Born into a noble Seelie family, Aellae was the most treasured child of the court. Her father died under mysterious circumstances, leading her mother to remarry. Aellae's stepfather did not like her and constantly looked for ways to push her out of court. Finally, she provided the means for him to remove her when she fell in love with an Unseelie prince. The two became shunned by both courts, and were banished to earth. Aellae's prince soon became ill from some earthborn disease, and no magic could cure it. Some speculated that he willed himself to die, unable to take the shame of banishment.</p>			
Notes			
<p>In either form, Aellae is a supernaturally beautiful woman with wavy red locks and crystal blue eyes. Left alone to her own devices, but unwilling to give up, Aellae vowed never to return to the Courts, and to survive on earth no matter what the cost. She eventually found herself doing odd jobs for Cirque, just to get by. Always in financial trouble, she manages to make it by sheer force of personality.</p>
